

# 2/1.3MP

## Speed Dome IP Camera

IP speed dome is capable of remote directional and zoom control, enabling wide area coverage and great details when zoom in. Yudor HX series with 360 degree pan and 180 degree tilt can cover every location with less blind spots comparing to regular cameras.

### Features

- Digital image stabilizer
- 20X / 22X optical zoom
- 256 preset points / 8 cruise
- Point to go for easy PTZ control
- Mobile view support (Push video)
- PoE support
- Onvif compliant
- SD card record up to 32G

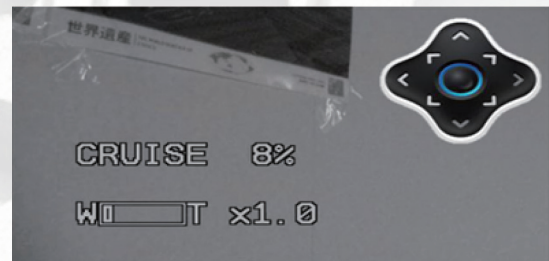

### Point-to-go

Just as what it is called, point-to-go enables PTZ control of the speed dome with only a click of the mouse. Direct pan, tilt and zoom on the browsers including IE, Firefox, Google Chrome are at your own will.

### Cruise

A user-defined sequence that allows surveillance camera to perform as users desire. Unlike traditional PTZ patrol, it provides a more satisfactory journey by enhancing the movements between scene to scene.

### Patrol

The function allows users to set up a customized journey with self-defined preset points and dwell time between each preset point.
